That buck deer in South Barre which bucked over a couple of men, stamped on them, smashed down the fence and started a little reign of terror in the community the other day would make a good football man—as the game is played today. REV. DR. PRATT AND GRAFT.
An Undertaker Wanted to Give Him a Present to Increase His Trade.
New York, Nov. 21.—A species of graft by which many New York ministers and physicians are suspected of benefiting was condemned Sunday morning by the Rev. Dr. George L. Pratt in his sermon in the Episcopal church of the Archangel.
Dr. Pratt referred to a complaint made by a western minister that "preachers and undertakers have joined the universal grafting game," and then read a letter, which he said he received from a New York firm of undertakers. This letter announced the enclosure of a "burial certificate" which the undertaker had the pleasure of presenting to Dr. Pratt. The certificate was good for \$100 of service by the donor and could be used at will by the minister.
In consideration of this present, it was hinted that the minister might see fit to recommend this undertaking firm to his parishioners. The parishoner was to be charged \$100 for the undertaker's service, but, if the actual cost did not reach that sum, the balance would be sent to the minister, who could return it to the family or use it in church work. It was said that these letters and "burial certificates" had been sent to nearly every minister, doctor and hospital official in the city.
Doctor Pratt made no charge, but said that the facts spoke for themselves, and were especially vicious in view of the statement of the undertaker that few of the \$100 presents had been returned to him.
The Rev. George L. Pratt, while a resident of St. Albans some years ago, was pastor of the Baptist church there. He later was converted to the Episcopalian faith.
COAL MINERS FAVOR PEACE.
Anti-Strike Feeling Evident in the Anthracite Region.
Philadelphia, Nov. 21.—An anti-strike feeling is evident throughout the anthracite region. There is a decidedly strong tendency toward the renewal of the present wage agreement and the continuation of the award of the strike commission.
The attitude of the coal companies is believed to be favorable for peace, and the fact that they are shipping big quantities of coal which they have been storing for several years is regarded as evidence that they look for the continuance of peace for another year at least.
